ANKIT SINGH

AI / MACHINE LEARNING • SOFTWARE DEVELOPMENT

Hyderabad, Telangana | ankitclx@gmail.com | GitHub | LinkedIn

PROFILE

First-year Computer Science student focused on practical AI/ML engineering. Built image-classification models and prediction projects, then connected a trained TensorFlow/Keras model to a FastAPI service with persistent SQLite history, frontend integration, and API tests. Seeking a remote AI/ML internship, preferably paid.

EDUCATION

B.Tech in Computer Science and Engineering | Keshav Memorial College of Engineering (KMCE)

First-year undergraduate

TECHNICAL SKILLS

Programming	Python, C, JavaScript, SQL, HTML, CSS
ML & Data	TensorFlow, Keras, scikit-learn, NumPy, Pandas, Matplotlib, Seaborn, CNNs, image classification
APIs & Tools	FastAPI, REST APIs, Pydantic, SQLite, pytest, Streamlit, Git, GitHub
CS Fundamentals	Data structures and algorithms, Big-O, linked lists, stacks/queues, trees, heaps, graphs, recursion, backtracking

SELECTED PROJECTS

VisionAI API | Image Classification & Backend Integration

- Integrated a trained TensorFlow/Keras CNN into a FastAPI application that classifies images into six scene categories: buildings, forest, glacier, mountain, sea, and street.
- Added Pydantic request/response validation, SQLite-backed prediction history, a web frontend, and pytest tests for API endpoints.

Cats vs Dogs Classification | Computer Vision

- Trained a CNN-based image classifier to distinguish cats from dogs using TensorFlow/Keras; evaluated model predictions on image inputs.

Machine Learning Projects | Predictive Modeling

- Built Salary Prediction, House Price Prediction, Titanic Classification, and Loan Approval Prediction projects with scikit-learn; used Streamlit for interactive demos.

CNN Practice | Image Classification

- Trained classifiers on MNIST, Fashion-MNIST, CIFAR-10, and a six-category natural-scene dataset.

PROBLEM SOLVING

LeetCode: Approximately 350 problems solved. Currently revising DSA patterns and strengthening implementation skills.

AREAS OF INTEREST

Computer Vision • Deep Learning • ML Model Serving • AI APIs • Backend Development
